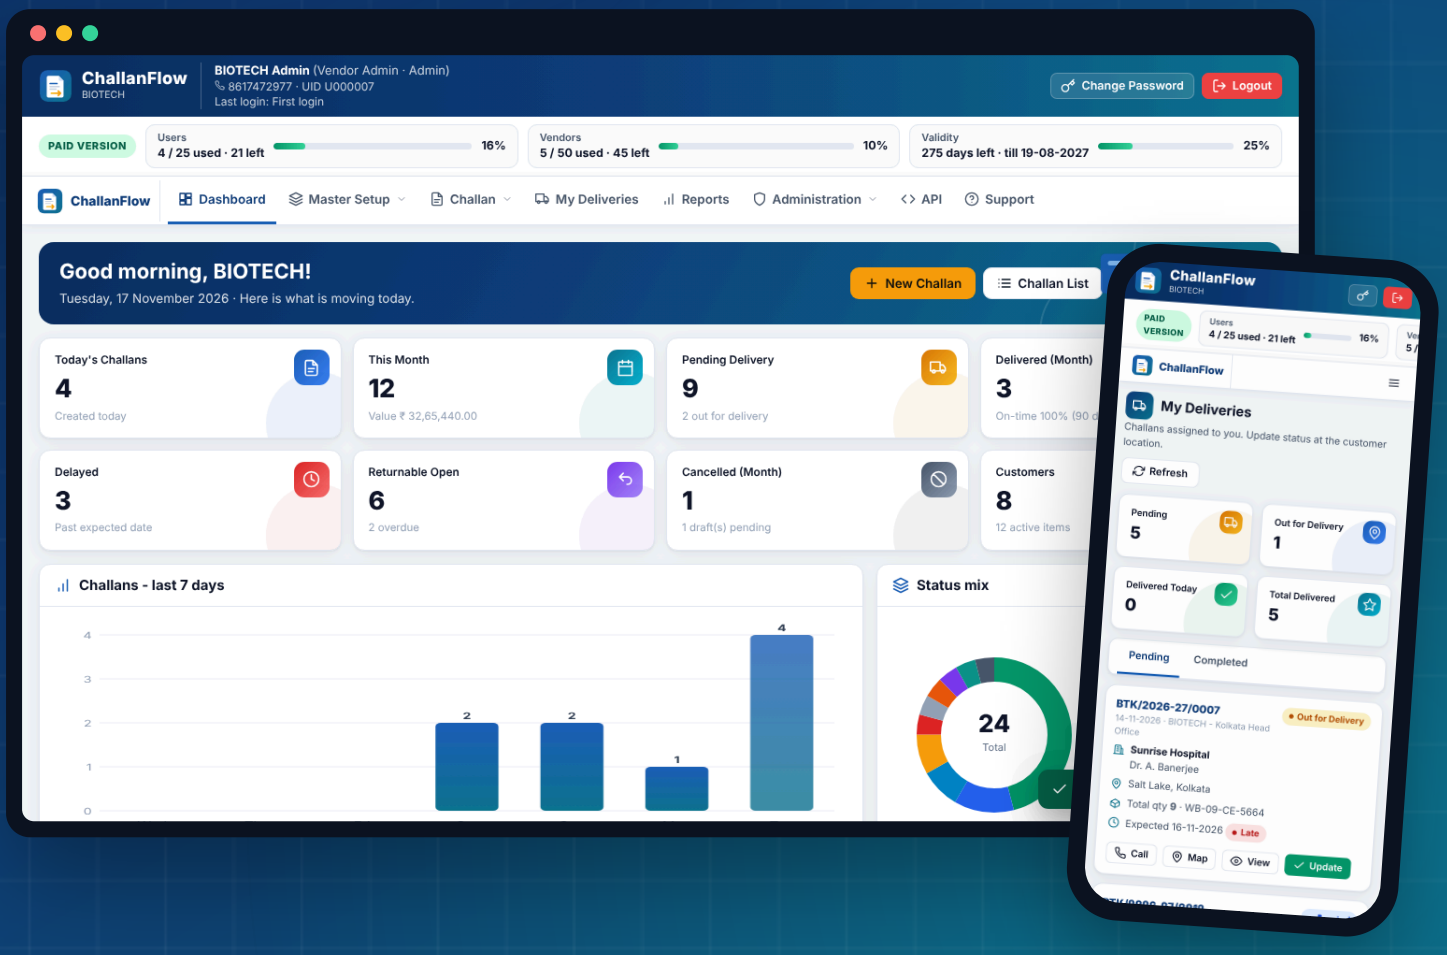
ChallanFlow

Smart Challan & Delivery Management

Every challan.
Every delivery.
Tracked live.

Create delivery challans in seconds, assign delivery persons, capture signed proof of delivery on mobile and keep every customer informed by email. Runs on your own server, even without internet.

- Client wise (multi company)
- Mobile delivery app
- Email notifications
- Excel & PDF reports
- Role wise access
- Full audit trail
- REST API



WHY CHALLANFLOW

From paper challan books to a live delivery desk

Dispatch teams still lose time on hand written challans, phone calls to drivers and "has it reached?" questions from customers. ChallanFlow puts the whole journey of every consignment on one screen, from the moment a challan is created to the receiver's signature.

Without ChallanFlow

- Hand written challans, wrong numbers, missing copies
- No idea where a consignment is right now
- Customers call again and again for status
- No proof of delivery when a dispute comes
- Returnable material is forgotten at sites
- Month end reports made by hand in Excel

With ChallanFlow

- Auto numbered challans per branch and financial year
- Live status with a complete life line for every challan
- Automatic email to the customer at every step
- Receiver signature, photo and location on mobile
- Returnable tracker with overdue alerts
- 15 ready reports, one click to Excel or PDF

HOW IT WORKS

Create
Challan in 30 sec

Dispatch
Vehicle, LR, transporter

Out for delivery
Delivery person app

Proof of delivery
Sign + photo + GPS

Customer informed
Email at every step

30 sec
to create a challan with auto filled items

tracked statuses from Draft to Delivered

15+
ready reports in Excel and PDF

100%
offline capable on your own server

COMPLETE FEATURE SET

Everything your dispatch team needs, in one place

Smart challan
Auto number per branch and financial year (BTK/2026-27/0001), item auto fill (unit, rate, HSN), drafts, edit with reason, cancel with reason.

Challan life line
Every status change, edit and delivery update is recorded with who, when, remarks and location. Nothing is lost.

Delivery person app
Mobile friendly list of assigned challans, call and map buttons, one tap Start, Delivered, Failed attempt or Returned.

Proof of delivery
Receiver name and mobile, finger signature on screen, delivery photo from camera and GPS location, printed on the challan.

Email notifications
Customer gets an email on create, update, status change, delivery and cancel. Editable templates, each one ON or OFF.

Returnable tracker
Returnable, job work and demo material with return due dates, item wise receive back and overdue alerts.

Professional print
Company logo, GSTIN, value in words, terms, 3 signature boxes. Original, duplicate and triplicate copies, with or without rate.

Master setup
Multiple companies and branches, customers, items, units, challan types and vendors / transporters.

Live dashboard
Today and month totals, pending and delayed deliveries, on time %, charts, top customers, top items and delivery team board.

PRINT READY

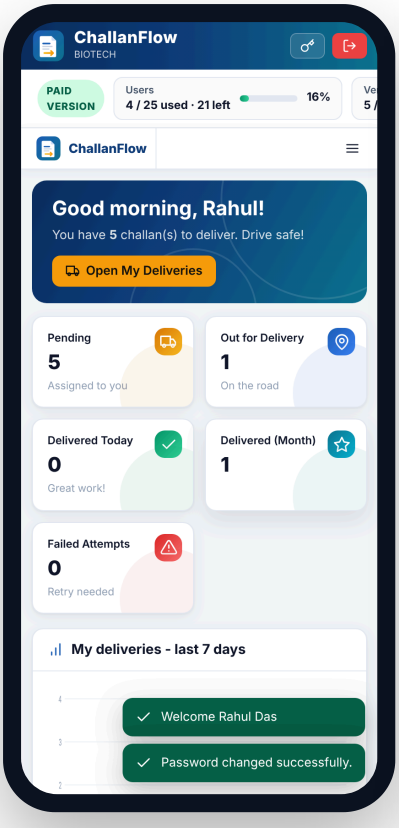
A challan your customer will trust

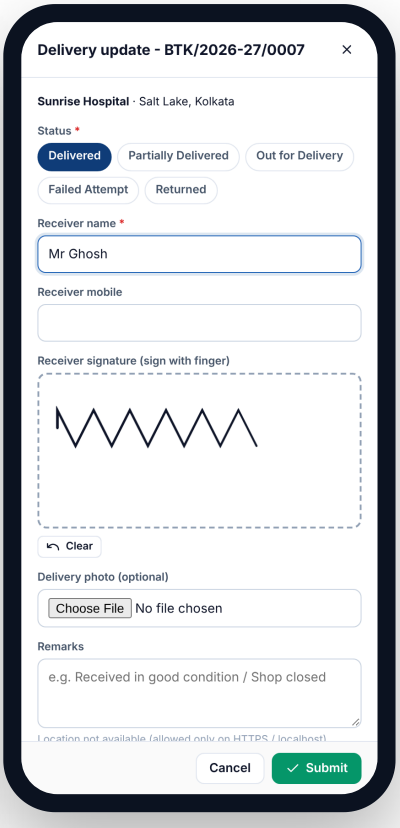
- Branch logo, address and GSTIN on top
- Consignee, transporter, vehicle and LR details
- HSN, unit, quantity, rate and amount with total in words
- Prepared by, delivered by, receiver and authorised signatory
- Receiver's digital signature printed after delivery
- Save as PDF straight from the browser

BUILT FOR THE ROAD

Your delivery team, on their phone

No app to install. Delivery persons open ChallanFlow in any mobile browser, see only the challans assigned to them and close each delivery with signed proof in under a minute.





What the delivery person does

1. Open My Deliveries
Assigned challans with customer, address, quantity and expected date. Late ones are flagged.

2. Call or navigate
One tap call to the customer and one tap map to the address.

3. Start the trip
Status becomes Out for Delivery and the customer gets an email.

4. Capture proof
Receiver name, finger signature, photo and GPS. Partial delivery with item wise quantity.

5. Problems handled
Failed attempt or returned, always with a reason for the office.

0
apps to install, works in Chrome, Safari, any browser

1 min
to close a delivery with signed proof

Live
office sees the update instantly in the life line

On time
delivery person performance report

CONTROL, REPORTS & SECURITY

The right access for every person

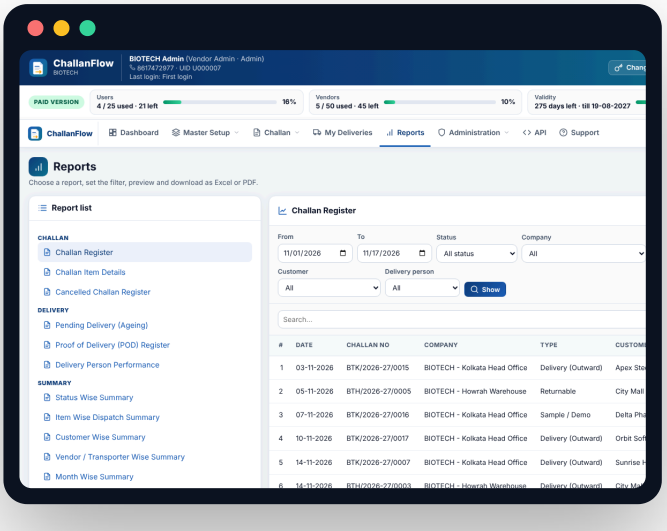
Role	What they can do
Developer BIOTECH support team	Create clients, convert trial to paid, set expiry, user and vendor limits, SMTP setup, email templates, API and feature ON / OFF, password lock rules, database reset with security PIN.
Vendor Admin Client's administrator	Everything for their own organisation: masters, challans, reports, API keys, audit log, and users with tick box page access.
Vendor User Office / dispatch staff	Only the pages the admin allows, for example Create Challan, Challan List, Update Status or Reports.
Delivery person Vendor user with delivery tick	Own assigned challans on mobile, status update and proof of delivery.

Reports (Excel & PDF)

Challan Register · Challan Item Details · Pending Delivery (Ageing) · POD Register · Delivery Person Performance · Status Wise Summary · Item Wise Dispatch · Customer Wise · Vendor / Transporter Wise · Month Wise · Returnable Tracker · Cancelled Register · Audit Log · User List & Access · Mobile Change History

Security built in

- Login by mobile number, OTP verified registration
- Forced change of default password
- Account lock after wrong attempts (configurable)
- Encrypted passwords and OTPs, session timeout
- Each client sees only its own data
- Audit log of every action with remarks and IP
- User history kept by UID even if mobile changes



Connect your ERP with REST API

Create challans, update status and read customers, items and challans from Tally, ERP, website or your own app. Secure API keys, documentation with examples and a "Try it" button inside the software.

Technology

PHP + MySQL · Runs on XAMPP / any PHP host · Works offline on LAN · Mobile & all browsers · Single page app, fast · Smart loaders
